

INTRODUCING

SureFoot provides daily updates on winter walking conditions in Winnipeg, helping you make safer choices before you go out.

The ratings are simple and easy to understand:

Easy

Bare pavement,
no ice.

Moderate

Mostly bare pavement
and compacted snow
surfaces with some
isolated slippery
sections

Difficult

Sidewalk travel not
advised for persons
with limited mobility.
Fresh snowfall,
freezing and thawing
conditions may cause
slippery walkways

Hazardous

Sidewalk travel not
advised. Walkways
are extremely
slippery

Watch for changing conditions

SureFoot provides daily updates on general winter walking conditions in our city so people can make safer choices and avoid slips and injuries due to falls.

Stay safe by following these tips for winter walking:

- Always wear properly fitted footwear with non-slip soles
- Don't rush! Walk slowly and allow more time for pedestrian travel
- Be aware of slippery street intersections
- Walk with a buddy when possible
- If you rely on a cane, use an ice grip that can be reversed when going indoors

Safe Choices, All Season Long
