Dear Aly Rodeward:

Once again, I am pleased to proclaim November as Fall Prevention Month in Manitoba.

Our government supports and recognizes the importance of preventing falls amongst Manitobans. We commend Shared Health, as well as other service delivery organizations in the province for their work to raise awareness and engage communities in efforts to prevent falls and fall-related injuries.

I also commend all organizations taking part in efforts to improve patient safety and reduce falls. I wish everyone involved much success with events planned to recognize Fall Prevention Month.

Sincerely,

A handwritten signature in blue ink that reads "Audrey Gordon".

Audrey Gordon
